

ANSI/APA PRG 320-2019 (Recirculation Ballot 2019-R1)

Ballot issue date: 10/14/2019

Ballot closing date: 10/28/2019

Ballot Instructions (Please read):

- 1) This is a recirculation ballot to **Ballot 2019-C1**, which was issued on 8/11/19 and closed 9/12/19. The tracked changes in this ballot are relative to **Ballot 2019-C1**.
- 2) Ballot 2019-C1 Item 1 received a negative vote and some comments, and Ballot 2019-C1 Item 2 received no negative vote except for some comments. The Executive Subcommittee carefully reviewed all comments and developed a response to each comment, as attached. However, due to the changes required to address the comments, this recirculation ballot is issued to afford all members of the Committee an opportunity to respond, reaffirm, or change their vote.
- 3) If this recirculation ballot does not affect your previous vote on each item, you can either confirm your vote by returning this ballot or do nothing (your previous vote will be considered as your vote on this recirculation ballot). However, it is encouraged that you return this ballot to avoid any ambiguity.
- 4) If the changes in this recirculation ballot do affect your vote on each item, you must cast your new vote by returning this ballot. A written explanation and proposed resolution is not required if you vote Negative or Affirmative-with-Comment. Nonetheless, if you would like to provide comments, please use the comment form below.
- 5) If you did not vote previously, you may choose to complete and return this ballot. In this case, however, if you are casting a “no” vote, you must submit a reason for the negative related to the ballot using the comment form below in order for your vote to be counted.
- 6) Please return your ballot by e-mail to borjen.yeh@apawood.org.

Committee Member Name
Signature (not required with e-mail)
Date

Ballot (Aff = affirmative; Aw/C = affirmative with comment; Neg = negative; Abst = abstention)
