POSITION ANNOUNCEMENT
Technical Services Division

Staff Engineer/Scientist

Responsibilities:
This key position will work with an elite team of technical staff in applied research, product evaluation, structural engineering, building envelope design, and building code and product standard development on engineered wood products, such as wood structural panels, prefabricated wood I-joists, structural composite lumber, cross-laminated timber and structural glued laminated timber. Substantial opportunities exist for professional growth through regular contact with the forest products industry, the engineering community, and other research organizations around the world.

Qualifications:
• M.S. or higher degree in structural engineering, wood science, or related field
• Two or more years of experience on engineered wood products and/or timber engineering
• Demonstrated positive work ethic and goal-driven attitude
• E.I.T. or P.E. registration is desirable

The Company:
APA-The Engineered Wood Association is the premier industry trade association representing the majority of North American producers of engineered wood products. We offer competitive compensation and a comprehensive benefits program including health, life and LTD insurance, paid leave and holidays, 401(k) retirement program, and tuition and wellness reimbursement programs.

Based in the beautiful Pacific Northwest, our Headquarters and Research Center are located in Tacoma, Washington. We are nestled between the Cascades and the Pacific Ocean with vast recreational opportunities and an excellent quality of life.

To Apply:
For confidential consideration, qualified applicants should submit a cover letter and resume to hr@apawood.org. Please visit our website at www.apawood.org.

APA is an Equal Opportunity Employer.
